

# LEGEND™ 5L ST

**PROVIDES PROTECTION AGAINST A BROAD SPECTRUM OF INSECT PESTS ON OVER 100 DIFFERENT CROPS**

Legend™ 5L ST is a systemic seed treatment insecticide belonging to the neonicotinoid class of chemistry. It controls certain chewing and sucking insects through contact and ingestion. The plant rapidly takes up the active ingredient as it starts to emerge and establish. The use of Legend 5L ST is compatible with integrated pest management programs. The length of control of the major insect pests will vary depending on the product use rate, insect pressure, crop growth and maturity, and soil and environmental conditions. When rate ranges are given, use the higher rate when insect pressure is expected to be high.

## PRODUCT FEATURES

- Contains thiamethoxam, one of the most consistent, effective active ingredients available.
- Protects the genetic potential of your seed investment from day one.
- Contains systemic properties that, when applied properly, protect the seed and move into the plant to protect early season foliage when plants are most vulnerable.
- Improves plant emergence, stands, consistency and health, and ultimately improve yield potential.
- Provides protection against a broad spectrum of insect pests on over 100 different crops.

## USAGE RATES\*

**Corn:** 0.125- 0.80 milligrams per kernel

**Soybeans:** 1.28 fl oz/100 lbs seed

**Wheat:** 0.75-1.33 fl oz/100 lbs seed

*\*Refer to product label for specific crops and usage rates based on target diseases.*
